PROFILE

Software Engineer with experience in Angular development, API integration, and AI-driven applications. Skilled in Python, Machine Learning fundamentals, and modern software development practices. Interested in GenAI applications, LLM-based systems, and scalable backend systems

EDUCATION

BACHELOR OF TECHNOLOGY IN CSE(AI&ML)

CMR TECHNICAL CAMPUS

CGPA: 8.50

2020 – 2024

Medchal, Hyderabad

INTERMEDIATE EDUCATION

Sri Sathya Sai Junior College

PERCENTAGE: 94.6%

2018 – 2020

Devarakonda,

Nalgonda

CENTRAL BOARD OF SECONDARY EDUCATION

HRD School Of Excellence

CGPA: 8.3

Devarakonda,

Nalgonda

INTERNSHIPS

CAMPALIN

Python With Machine Learning

07/2022 – 09/2022

PROFESSIONAL EXPERIENCE

Specialist Programmer - UI/Software Developer

Infosys

09/2024 – Present

Hyderabad

- Developed and maintained responsive UI modules for an Agentic AI platform using Angular and TypeScript.
- Designed and implemented major platform features to enhance AI-driven workflows and overall user experience.
- Integrated frontend applications with backend REST APIs for seamless communication and dynamic data handling.
- Maintained and enhanced production-level Agentic AI applications in an Agile development environment.
- Used Git-based version control and collaborated with cross-functional teams through peer reviews, sprint planning, and feature delivery.

TECHNICAL SKILLS

- Programming Languages: C, C++, Python
- Web Development: HTML, CSS, TypeScript, Spring Boot, Spring Core, Angular
- GenAI Fundamentals, Prompt Engineering, LLM Basics
- MySQL
- Good at Building ML Model & EDA

STRENGTHS

Quick learner

Adaptable

Good Team Player

CERTIFICATES

- From Data To Insights With Google Cloud. [↗](#)
- Data Analytics Virtual Internship by Eduskills AICTE [↗](#)
- Microsoft AI-102
- Claude Certified Architect Ai Foundations

PROJECTS

Binary Classification Model for Credit Risk Customer.

- Performed EDA(Exploratory Data Analysis),includes univariate,bivariate and multivariate analysis for Insights.
- Analyzed complex data sets through comprehensive EDA, extracting actionable insights and identifying significant variables that directly influenced business outcomes, leading to strategic decision-making and improved performance.
- Build model using Adaboost and achieved 85 % accuracy.

Human Activity Recognition.

- Human activity recognition (HAR) using Convolutional Neural Networks (CNNs) on the MSRAction3D dataset involves training a model to classify human actions based on depth maps.
- Designed and implemented CNN architectures specifically tailored for human activity recognition.
- Evaluated trained models on the testing set to assess their performance in activity recognition.

EXTRA-CURRICULAR ACTIVITIES

- Participated in IIC SNIST Regional Meet.
- Participated in Maverick Online Quiz by unstop.
- Performed as lead singer in our college's annual day- Efflorescence 2k22.

DECLARATION

I hereby declare that the information furnished above is true to the best of my knowledge.
